PROFESSIONAL SUMMARY

Junior Web Developer passionate about building full-stack web applications, from database design and scalable backend architectures to intuitive and engaging user interfaces. Currently pursuing a University Technical Degree in Programming at Universidad Nacional de Hurlingham (UNAHUR), with a strong focus on problem-solving, clean code, and software development best practices. Combined with a solid background in computer hardware, my technical training provides me with a comprehensive understanding of technology, enabling me to analyze and optimize systems from end to end.

TECHNICAL & SOFT SKILLS

Technical Skills: JavaScript, TypeScript, React, Node.js, Express.js, Java, MySQL, MongoDB, Git, GitHub.

Soft Skills: Problem-solving, self-learning, creative thinking, teamwork, effective communication, adaptability, and time management.

Additional Technical Knowledge: PC assembly, hardware diagnostics, troubleshooting, and repair.

SELECTED PROJECTS

UnaHur Antisocial (Full-Stack Web Application & REST API)

- Backend:** Developed a REST API using Node.js and Express.js, with a NoSQL architecture based on MongoDB and in-memory caching.
- Frontend:** Built a React web client featuring authentication, an interactive feed, follower management, and image handling.

Apex Store (E-commerce SPA)

- Developed a React-based single-page e-commerce application with a dynamic product catalog.
- Implemented a persistent shopping cart using LocalStorage, cross-filtering functionality, and a payment simulation.

PROFESSIONAL EXPERIENCE

Junior Web Developer

Universidad Nacional de Hurlingham | April 2026 – Present

- Develop end-to-end web applications and projects, working across both frontend and backend logic.
- Implement interactive user interfaces and server-side functionality.

IT Technical Support

Municipality de José C. Paz | September 2025 – Present

- Diagnose, troubleshoot, optimize, and resolve hardware and network-related issues while providing technical support to ensure the proper operation of computer equipment and network infrastructure.
